PROJECT NAME

Southern New Jersey Light Rail Transit Park-and-Ride Design

PROJECT OWNER

NJ Transit Corporation

PROJECT CLIENT

Parsons Brinckerhoff

START/END DATES

2000 – 2002

PROJECT DESCRIPTION

KS Engineers, P.C. (KSE) performed the design of three new park-and-ride facilities (Snowden, Delanco, Hamilton). For this project, KSE was responsible for the preparation of contract documents for grading and drainage, pavement striping and traffic signing, and soil erosion and sediment control. Specifically, the scope of work included the following:

- Grading and drainage
- Detention and catch basins
- On-site geometrics
- Signage and striping
- Pavement design
- Roadway, sidewalk, and curb construction or reconstruction.
