Condition Inspection of the New York City Port Authority Bus Terminal Inspection

New York, NY

PROJECT NAME

Condition Inspection of the Port Authority Bus Terminal Inspection in New York City

PROJECT OWNER

Port Authority of New York & New Jersey

SERVICES PROVIDED

- Construction Inspection
- Building Construction Inspection

PROJECT DESCRIPTION

KS Engineers, P.C. (KSE) provided in-depth inspection of the Port Authority Bus Terminal in New York City. The inspection work included the bus and parking level slabs, columns, beams and other structural components of the facility. All work was done during night time to minimize disruptions to public and normal operations of the facility.
