

KS Engineers, P.C. (KSE) is proud to announce creation of our new Landscape Architecture department. The landscape architectural services will augment our civil engineering services and will be seamlessly integrated with our site engineering, traffic and transportation design and roadway & bridge design services.

We are pleased to appoint Ms. Winifred Carroll Gordon, ASLA as the Director of this new Landscape Architecture Department. Ms. Gordon brings more than 25 years of experience as a Landscape Architect to **KSE**. She has worked on a wide variety of project types for clients in both the public and private sectors and will spearhead the development of **KSE's** new division. Her work has included landscape design for educational facilities, office buildings, inner city housing, condominiums, sports venues, and industrial centers, as well as the design of pedestrian crossings, bikeways, streetscapes, parking areas, public parks, and boardwalks. Ms. Gordon is experienced in site selection and planning, devising site designs, planting plans, grading, layout, material selection and coordination with regulatory agencies.

KSE is an award-winning, engineering firm that is known throughout the region for providing outstanding civil/structural engineering, traffic & transportation engineering, land surveying, and construction management and support services to public and private clients in New Jersey, New York and Pennsylvania.

For all your landscape architecture needs, please contact Ms. Carroll Gordon at our Corporate Headquarters in New Jersey at 973.623.2999 or by e-mail at cgordon@kseng.com .
