

FOR IMMEDIATE RELEASE

KSE ANNOUNCES OPENING OF NEW LANDSCAPE ARCHITECTURE DEPARTMENT

NEWARK, NJ, February 14, 2008 -- KS Engineers, P.C (KSE) is proud to announce creation of our new Landscape Architecture Department. The landscape architectural services will augment the firm's existing civil engineering practice and will be seamlessly integrated with the site engineering, traffic and transportation design and roadway & bridge design services.

KSE is pleased to welcome Ms. Winifred Carroll Gordon to KS Engineers as the Director of our new Landscape Architecture Department. She will lead the initiative to develop KSE's presence in the Landscape Architecture sector.

Ms. Gordon is a licensed landscape architect and professional planner with more than 25 years of diverse experience. She has provided landscape design for educational facilities, office buildings, inner city housing, condominiums, sports venues and industrial centers. In addition, she has designed pedestrian crossings, bikeways, streetscapes, parking areas, public parks, and boardwalks. Ms. Gordon is experienced in site selection and planning, devising site designs, planting plans, grading, layout, material selection and coordination with regulatory agencies.

Founded in 1991, KSE is a mid-sized, multi-disciplinary MBE/SBE/DBE providing civil and structural engineering, land surveying and construction management and support services in New Jersey, New York and Pennsylvania. With a staff of more than 95 full-time professionals including a licensed landscape architect, 16 licensed engineers, 2 multi-state licensed land surveyors, 2 professional planners and more than 50 construction management personnel, KSE has provided essential engineering and construction support services for public and private entities throughout the region.

For all your landscape architecture needs, please contact Ms. Carroll Gordon at our Corporate Headquarters in New Jersey at 973.623.2999 or by e-mail at cgordon@kseng.com .
