

KS Engineers, P.C.

Engineers | Surveyors | Construction Managers

KSE Welcomes James Henry

*For Immediate Release:
September, 2010*

*Contact: Dianna Keable
973.623.2999 ext. 151*

KS Engineers, P.C. (KSE) is pleased to welcome James Henry as Vice President and Deputy Director of Construction Services.

With over 29 years of experience in the fields of heavy highway, bridge and building construction, inspection, construction management, project management and contract administration, Jim will lead the growth of our Construction Services division in South New Jersey and Philadelphia, PA.

Prior to joining KSE, Jim served as a New Jersey Turnpike Authority Project Liaison Engineer for 6 years, responsible for the management of many projects including: Interchange No. 1 Relocation, sound barrier projects, guardrail and signage improvement projects, drainage improvement projects and building construction projects, including the beginning phases of the New Troop E Holmdel State Police Barracks on the Garden State Parkway.

Prior to working at the Authority, Jim served as a Consultant Resident Engineer on New Jersey Turnpike projects for nine years and also as Assistant Resident Engineer and Chief Inspector on various NJDOT, PennDOT and Camden County MUA projects throughout his career. He has a NICET Level IV certification and is a member of ASHE-SNJ, ASCE and CMAA.

Jim received the State of New Jersey Professional Excellence Award and several of the projects on which he worked have been recognized with awards. As KSE continues to grow in the Southern New Jersey and Philadelphia regions, Jim will play a key role in the management of our construction projects and the development of new client relationships. He can be reached at 856.524.8719 and by email at jhenry@kseng.com.

About KSE

Founded in 1991, KSE is an award-winning, multi-disciplinary MBE providing civil and structural engineering, land surveying, landscape architecture, construction management and construction support services in New Jersey, New York and Pennsylvania. With a staff of nearly 200 professionals, KSE has provided essential engineering and construction management services to public and private entities throughout the region.
