

On the Road to Xanadu

The Xanadu Entertainment Complex in the New Jersey Meadowlands is being constructed by Meadowlands Management, LLC. KS Engineers, P.C. provided construction management and inspection services for new access roadways, a flyover bridge and new ramps for this \$2.0 Billion project. Our Resident Engineer, Office Engineer, Chief Inspector and compliment of skilled inspectors worked in concert with the New Jersey Department of Transportation and the New Jersey Sports and Exposition Authority and successfully carried out this project within the time constraints and restriction associated with events at Giants Stadium, the Meadowlands Race Track and the IZOD CENTER Complex. KS Engineers is extremely proud of this extraordinary and challenging project.
